### **CLEAN ENERGY FINANCE CORPORATION**

## Case Studies and Emerging Market Characteristics for Rooftop Solar and Storage

Simon Brooker, Executive Director – Corporate and Project Finance

#### **CEFC Mission**

Accelerate Australia's transformation towards a more competitive economy in a carbon constrained world, by acting as a catalyst to increase investment in emissions reduction

#### **Case Studies** & Emerging Market Characteristics in **Rooftop solar & Storage**

#### **Agenda**

- 1. Overview of the CEFC
- 2. CEFC Support to Date
- 3. Role of Finance in Delivering Value to the Customer
- 4. Emerging Opportunities

#### What the CEFC looks for...

- > A sponsor with sufficient equity at risk
- A commercial business proposition
- Experienced counterparties
- > Scale:
  - > \$20m + direct to the opportunity
  - > \$20m + via aggregation platform
- > A commercial return on its investment

#### What CEFC is bringing to the table

- A significant source of senior debt
- Fixed rate, but prepayable at no cost after an initial deployment period
- Longer tenor than traditionally available
- Sector knowledge
- Flexible and varied structuring solutions
- Preparedness to take performance risk (PPA product) in addition to credit risk (loan product)
- Sole underwriting where bank appetite does not exist.

#### **Agenda**

1. Overview of the CEFC

#### 2. CEFC Support to Date

- 3. Role of Finance in Delivering Value to the Customer
- 4. Emerging Opportunities

#### **Programs CEFC is supporting**

- PPA and guaranteed lease programs being brought to market by:
  - SunEdison
  - > ET Solar
  - Lighthouse / Tindo
- Solar loan financing via CBA bank partnership
- CEFC is currently developing:
  - Corporate loan programs to support the corporate roll out of solar
  - Securitisation programs to assist solar financing

#### **Agenda**

- 1. Overview of the CEFC
- 2. CEFC Support to Date
- 3. Role of Finance in Delivering Value to the Customer
- 4. Emerging Opportunities

# CLEAN ENERGY FINANCE CORPORATION

What Drives the Customer's Finance Rate?

- The risk being taken by equity
- The return required by a debt financier's - driven by:
  - Market base rates
  - Margin to compensate for lender risk
- The relative levels of debt and equity (which determines the "weighted cost of finance")

|               | •     | Gearing |       |       |                  |
|---------------|-------|---------|-------|-------|------------------|
|               |       |         |       |       | <b>Debt Rate</b> |
| Financier ROE | 4.5%  | 5.5%    | 6.5%  | 7.5%  | 8.5%             |
| 10%           | 7.3%  | 7.8%    | 8.3%  | 8.8%  | 9.3%             |
| 12%           | 8.3%  | 8.8%    | 9.3%  | 9.8%  | 10.3%            |

#### **Risk Factors Equity and Debt Consider**

For small scale solar / behind the meter equipment key risk factors include:

- Customer default risk
- Sponsor credit risk (in the case of banks)
- Counterparty performance risk
- Regulatory risk
- Equipment performance risk
- Production risk

#### The weighted cost of capital should come down

- Internationally, investors are seeking out the solar asset class:
  - Project equity yield-cos expanding rapidly
  - Rapid development of solar loan programs to complement PPA offerings
  - Securitisation of solar PPAs is happening
  - Banks are providing big warehouse funding programs securitisation will follow
- Deal flow and asset class familiarity is driving
  - Higher leverage
  - Lower required equity returns and
  - Lower margins;
- Plus debt Base Rates are at historic lows

#### **Low Interest Rate Environment**

#### A lower cost of capital Finance Rate translates to a lower implied cost of power (1)

But longer tenor financing is also critical

Long term finance not readily available

Which is where the CEFC can help

Energy Equivalent cost in c/kWh / for given financing term and WACC

100% self consumption assumed

|                 | WACC  |       |        |        |        |        |        |        |
|-----------------|-------|-------|--------|--------|--------|--------|--------|--------|
| Loan/Lease Term | 8.00% | 9.00% | 10.00% | 11.00% | 12.00% | 13.00% | 14.00% | 15.00% |
| 3               | 43.28 | 44.06 | 44.85  | 45.64  | 46.44  | 47.24  | 48.04  | 48.85  |
| 4               | 33.67 | 34.43 | 35.18  | 35.95  | 36.72  | 37.50  | 38.28  | 39.06  |
| 5               | 27.93 | 28.67 | 29.42  | 30.18  | 30.94  | 31.71  | 32.49  | 33.27  |
| 6               | 24.13 | 24.86 | 25.61  | 26.36  | 27.13  | 27.90  | 28.68  | 29.47  |
| 7               | 21.42 | 22.16 | 22.91  | 23.67  | 24.44  | 25.22  | 26.01  | 26.81  |
| 8               | 19.41 | 20.15 | 20.91  | 21.67  | 22.45  | 23.24  | 24.04  | 24.85  |
| 9               | 17.85 | 18.60 | 19.37  | 20.14  | 20.93  | 21.73  | 22.55  | 23.37  |
| 10              | 16.62 | 17.38 | 18.15  | 18.94  | 19.74  | 20.55  | 21.38  | 22.22  |
| 11              | 15.62 | 16.39 | 17.17  | 17.97  | 18.78  | 19.61  | 20.45  | 21.31  |
| 12              | 14.80 | 15.58 | 16.37  | 17.18  | 18.00  | 18.85  | 19.70  | 20.58  |
| 15              | 13.03 | 13.84 | 14.66  | 15.51  | 16.38  | 17.26  | 18.16  | 19.07  |
| 20              | 11.36 | 12.22 | 13.10  | 14.01  | 14.93  | 15.88  | 16.84  | 17.82  |
| 25              | 10.45 | 11.35 | 12.29  | 13.24  | 14.22  | 15.22  | 16.23  | 17.25  |

#### A lower cost of capital Finance Rate translates to a lower implied cost of power (2)

But a customer also needs to consider how much power they can actually use

Other commercial factors (connection costs, peak demand pricing) will influence effective cost of power in c/kWh

Energy Equivalent cost in c/kWh / for given financing term and WACC

70% self consumption, 6c FIT net off export revenue from finance cost

|                 | WACC  |       |        |        |        |        |        |        |
|-----------------|-------|-------|--------|--------|--------|--------|--------|--------|
| Loan/Lease Term | 8.00% | 9.00% | 10.00% | 11.00% | 12.00% | 13.00% | 14.00% | 15.00% |
| 3               | 59.25 | 60.37 | 61.50  | 62.63  | 63.76  | 64.91  | 66.06  | 67.21  |
| 4               | 45.53 | 46.61 | 47.69  | 48.78  | 49.88  | 50.99  | 52.11  | 53.24  |
| 5               | 37.33 | 38.39 | 39.46  | 40.54  | 41.63  | 42.73  | 43.84  | 44.96  |
| 6               | 31.89 | 32.95 | 34.01  | 35.09  | 36.18  | 37.28  | 38.40  | 39.53  |
| 7               | 28.03 | 29.09 | 30.16  | 31.24  | 32.34  | 33.45  | 34.58  | 35.72  |
| 8               | 25.15 | 26.22 | 27.29  | 28.39  | 29.50  | 30.63  | 31.77  | 32.93  |
| 9               | 22.93 | 24.00 | 25.09  | 26.20  | 27.33  | 28.48  | 29.64  | 30.82  |
| 10              | 21.17 | 22.26 | 23.36  | 24.48  | 25.63  | 26.79  | 27.97  | 29.17  |
| 11              | 19.75 | 20.84 | 21.96  | 23.10  | 24.26  | 25.44  | 26.65  | 27.87  |
| 12              | 18.57 | 19.68 | 20.81  | 21.97  | 23.15  | 24.35  | 25.58  | 26.82  |
| 15              | 16.04 | 17.19 | 18.38  | 19.59  | 20.82  | 22.08  | 23.37  | 24.68  |
| 20              | 13.66 | 14.88 | 16.14  | 17.44  | 18.76  | 20.11  | 21.48  | 22.88  |
| 25              | 12.35 | 13.65 | 14.98  | 16.35  | 17.74  | 19.17  | 20.61  | 22.08  |

#### **Agenda**

- 1. Overview of the CEFC
- 2. CEFC Support to Date
- 3. Role of Finance in Delivering Value to the Customer
- 4. Emerging Opportunities

#### **Emerging Opportunities**

#### Technology innovation (e.g. battery)

- Tesla announcement
- AGL announcement

New Retailing Models

#### ARENA / CEFC **Partnership**

More efficient financing

Solar focused efficiency upgrade agreements ("EUA") programs

Bespoke solar loan product

Green Bond financing
